Nature of Grievance: I was dragged across the floor of the Hamilton County Courthouse causing injury to a debilitating health condition on the morning of July 22 in Patrick Dinkelackers court room. Such action aggravated a serious preexisting medical condition to my neck, back and legs. It was a use of force that also caused degradation and dehumanization and was broadcast across the world. My back has been severely injured and I've been in great pain ever since. I was wearing a back brace at the time. I also have ~~rod~~ <sup>rod</sup> in my spine.
